

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

CIVIC, SOCIAL, INDUSTRIAL.

THE QUARTERLY ORGAN OF THE INSTITUTE.

Published on the Fifteenth of January, April, July, and October.

Each issue of PROGRESS contains, in addition to interesting articles, a Bibliography and List of Magazine References for the preceding three months, which are invaluable for Students of Social Questions.

For further information about the Institute or PROGRESS, write to

B. I. S. S., 11, SOUTHAMPTON ROW, W.C.

MORE BOOKS TO READ.

PREFATORY NOTE.

THE following list of books is a supplement to the fourth edition of "What to Read" (Tract No. 29; 6d. n.), published in October, 1901. The books are classified under almost the same headings, and in some cases headings are inserted without books in order to indicate that the editors have nothing to add to the earlier list. The books catalogued consist of publications since October, 1901, and only in one or two cases, for special reasons, are older books or new editions mentioned. A small number of the more important Blue-books are added at the end of the sections concerned.

The editors cannot pretend to have read or examined every book in the list, and occasionally they may have placed books under wrong headings, owing to the practice, unfortunately common with authors, of using misleading or vague titles.

The books selected are those likely to be required by Socialists and Social Reformers, and for this reason the completeness of the lists greatly varies. For example, under Free Trade, only a dozen volumes are named out of the hundreds published, whilst under Socialism all books of any permanent importance are (or should be) included.

Finally, the editors desire to say that, although on the subjects named they have used every endeavor to mention all the books suitable in respect of price and contents for the class of reader contemplated—that is, for those who do not desire very recondite, or, unless absolutely indispensable, very expensive, books—they cannot hope that there are no omissions, and that every book named is rightly included.

INDEX OF AUTHORS.

- A**—Acton, 11. Acworth, 16. Adams, 13. Addams, 6. Alden, 18. Alston, 10. Amery, 15. Andrews, 11. Armitage Smith, 9. Ashbee, 16. Ashley, P., 9, 10. Ashley, W. J., 9, 11, 12. Ashley, R. L., 15. Atkins, 15. Atkinson, 10.
- B**—Bax, 16. Best, 11. Binns, 5. Blackburn, 18, 19. Bland, 17. Blatchford, 16. Blauvelt, 6. Boies, 7. Böhm-Bawerk, 8. Bonn, 13. Bosanquet, 10. Boutmy, 15. Bowles, 9. Bowley, 17. Boyle, 9. Brabrook, 9. Bradshaw, 8. Brooks, 16. Bucher, 10. Burton, 12.
